LISA CHEST

The awesome Lisa Chest is back in the porno business again after a brief, er, lay-off. Our man Dave Hardcastle met the mega-boobed beauty to find out just what got her back on her back!

Born in 1968 in Pasadena, California, Lisa Chest has the sort of body that can pin a man against the ropes; large, juicy breasts and an equally well-endowed backside. She burst onto the big boob movie scene way back in the late 80s and soon distinguished herself as one of porn's most popular performers. She actually retired after a year of intense on-screen fucking, only to return with even bigger tits and a raunchier attitude. Since then she's had more comebacks than Ron Jeremy has dropped his strides, but now it appears she's back to stay - fingers (but not legs) crossed, eh?

Big Ones: So, Lisa, why did you quit porn the first time?

Lisa: 'Well, before when I was in it, what used to upset me was that I was working every day practically for the eight months that I'd been in the business. Up until then I was being fucked an average of 25 days out of every month - and I mean *fucked*! Fucked from one end of the movie set to the other, and then back again. So one day I just woke up and said to myself: 'That's it. I've had enough!' I guess I'd simply burned out. Since then I've changed my attitude, and I only work when I feel like it.'

Big Ones: What is your ultimate goal in life?

Lisa: 'Well, I really like to travel, and I

have plenty of money now to do whatever else I want to do - whether it's just travelling or just laying around by my pool, or working out every day or maybe even going to school. That aspect is great. I love having the freedom. And I guess that when all's said and done, the freedom I have is pretty much due to the huge amount of fucking I've done and have gotten paid for!

You know, I got into the porno business when I was just 18 and suddenly found myself with lots of money and I think I kinda spoiled myself back then. But I do really love having sex in front of the camera! I love it that there's thousands and thousands of people out there who get off just seeing me in action. That's a huge part of this business for me. I was never ever one of those girls who wake up in the morning on the day they make a porno movie and say, 'Goddamn it, I don't want to go, blah-blah-blah, I'm just doing it for the money.' I love what I do, and why shouldn't I? After all, the sex turns me on and is absolutely phenomenal!'

'Up until then I was being fucked an average of 25 days out of every month...'

Big Ones: So we can take it that your on-screen orgasms are genuine then?

Lisa: 'They most certainly are! I've always enjoyed going to work on a porno movie set, and 90 percent of the time I have really liked the people I've been working with. I tend to miss the business when I give it up, like when I was dating this guy who didn't like what I was doing and so he gave me an ultimatum. I was in love with him and said, 'All right, I'll hang up my dildo for a while.' But I always kept the lines of communication open with the porno movie companies. I always knew that someday I'd be back out there riding cock and eating pussy.'

Big Ones: Tell us about your tits.

Lisa: 'These little things?' (laughs). Well, I've always had really big tits. When I was at school I had bigger tits than anyone else in the entire school - even the female teachers - and that used to make me mad. But then I began to realise the power that having big tits gives, you know, like some women wear shoulder pads when they feel like they need to be bossy? Every time I get them made bigger I feel more powerful, which is a big turn-on to me.'

Big Ones: How did you get into the porno movie business in the first place?

Lisa: 'It happened out of the blue, as these life changing things usually do! I was standing outside the Holiday Inn one night waiting for a girlfriend to pick me up, when this little blonde surfer guy pulls up in a white Trans-Am with a little gold eagle on the hood and we just started talking. He said, 'Oh, what kind of work do you do? You're very pretty you know, you should do modelling.'
He told me his name was Greg and he gave me a card for an L.A. modelling agency and said that it involved 'a little

nudity.' And that was the beginning... From the day that I finally got so broke I felt I had to call the number on the card or starve, I was making porno movies for eight months practically without a break. The weird thing is, before that, I had hardly had any regular sex at all, and all the guys I'd been with had only been interested in getting themselves off and didn't care whether I got off or not - they just liked to come on my tits. So to me, the porno scene was really exciting.'

Big Ones: Finally, Lisa, what kind of men do you go for?

Lisa: 'I have always been really attracted to older guys. But for me it's the guy inside, that's what matters. Not youth, not hair colour... Not cock-size either, so don't worry guys, you don't have to have a giant cock to ring this baby's bell!'

LINSEY

'There's something so wicked, so dirty about doggy-style fucking,' grins our woman in white. 'I love the anticipation. I literally shiver with excitement as I wait, with my pussy juices streaming down my thighs, for the first touch of the guy's cock to my opening. It's even better if the guy's into anal play. I used to think that nothing could beat the feel of a stiff prick plugging and stretching my pussy, then I had a guy start teasing my arsehole, finally sinking three fingers in it, right down to the knuckle. It was the tightest, most intense fuck I'd ever had... until, that is, I let him lube my arsehole with spunk and shag me up it...

Karen

Curvy 42-year-old Karen is used to being paid compliments about the impressive size of her begonias. That's because when she's not getting her kecks off for our viewing pleasure, this attractive Spalding lass runs her own small garden centre.

To look at her you certainly wouldn't think she was the shy and silent type. But it has taken Karen a long time to pluck up the courage to make her debut in *40 Plus*.

"I guess I should have done it years ago," she laughs. "My boyfriend gets your mag regularly and has been pestering me non-stop about sending some nude shots in. But it wasn't until he took a couple of polaroids of me that I realised I was actually quite sexy.

"It has certainly been good news for my sex life. Why should my cactus get all the pricks?"

They say the late bloomers are the worst...

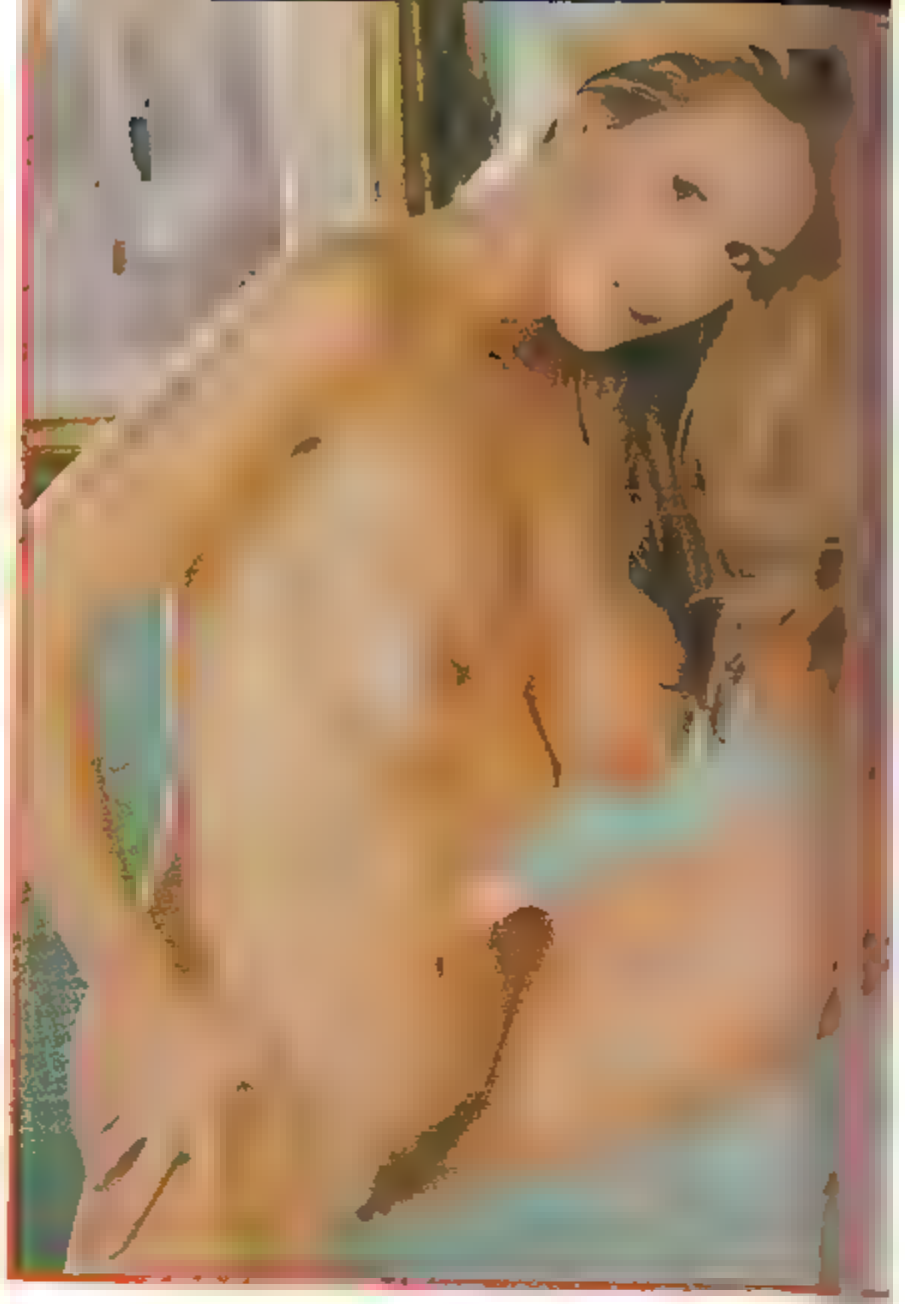
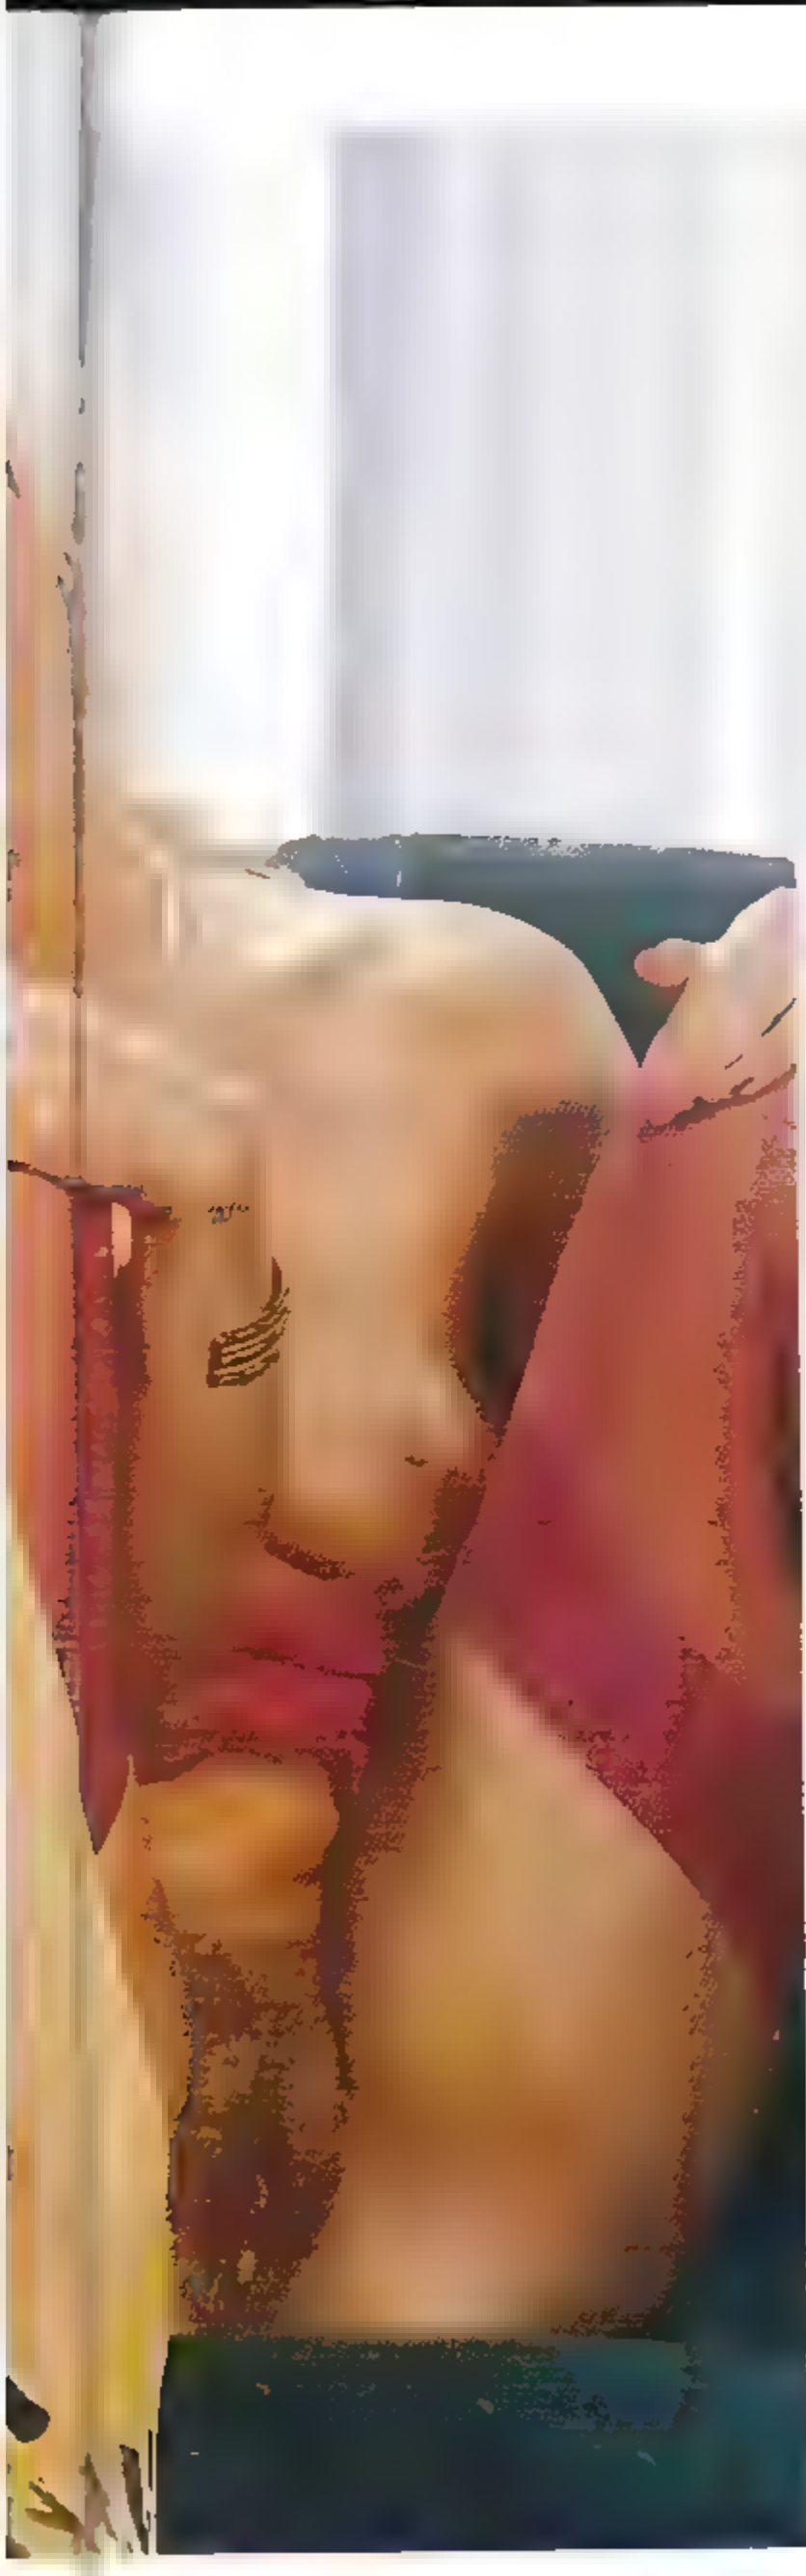
ADELE
STEPHENS



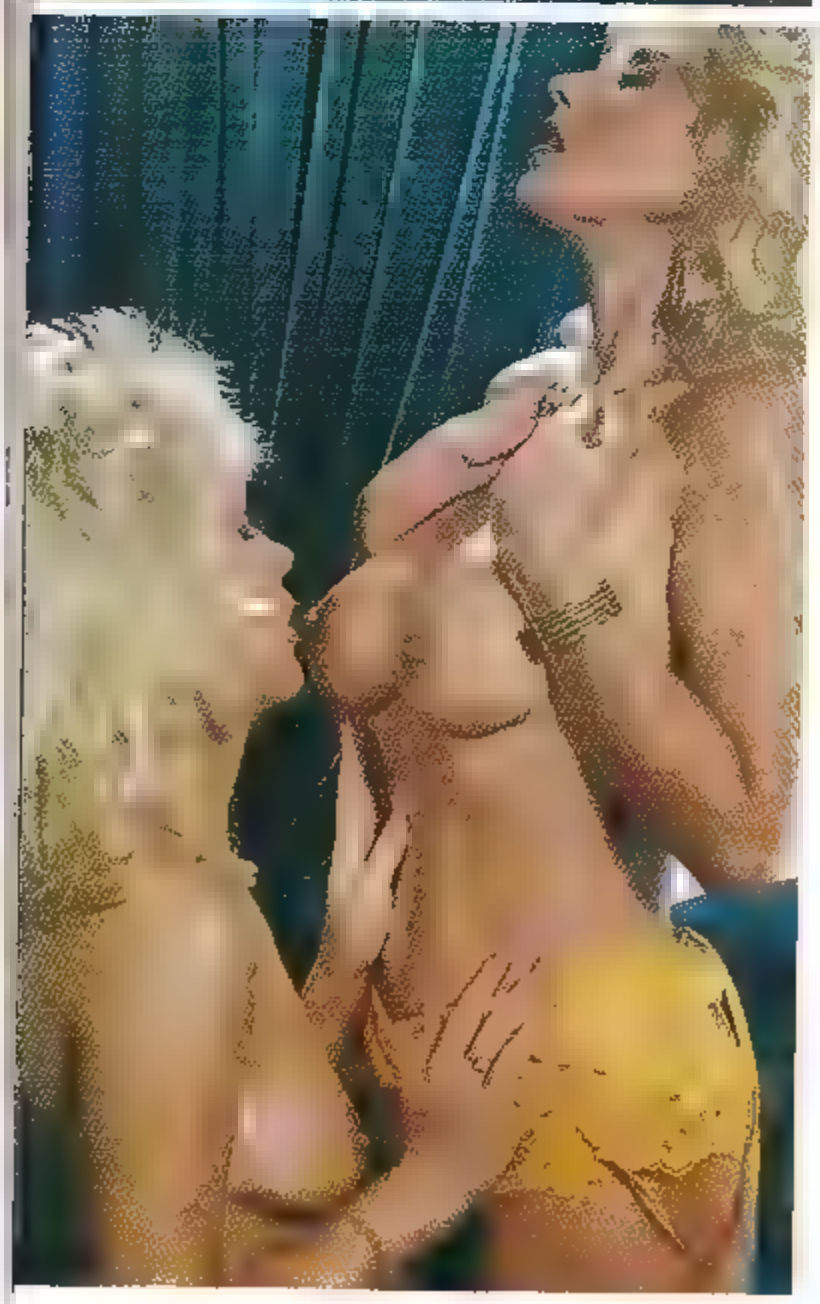
Adele says she s somethi an old-fashioned girl wh comes to sex. "I'm not pa ticularly into group scenes - whe m with a guy I want his full attention," she explains. "I love t spend hours kissing and licking an sucking every inch of his body especially when I get the chance to kiss his balls. I know I give rea good blowjobs, but I do expect t get good head in return." We can t see very many men havi a problem with that, Adele

Confessions



I'm an 18-year-old blonde, very pretty, with a nice slim body and firm 36B tits. I haven't had that much experience of sex yet, but I do love to masturbate. I lock my bedroom door, strip totally naked and, after admiring my body in the mirror, I lie face down on the bed with my legs wide apart. Then I cup my hand firmly over my pussy and begin to move my bottom up and down, holding my hand still. I keep a firm pressure on my pussy and slowly but surely the sensation builds up. My pussy starts to get really wet... It begins to open up so that the moisture is smeared over my hand. I start to frig myself as well, imagining a good-looking guy shafting me hard with his huge cock and, before long, I'm caught up in a massive cum, flooding my fingers and drenching the bed sheet!

One of my big fantasies is to be watched while having sex with a couple of guys – or even a girl! It's a common enough fantasy, I guess, but when I confessed it to my best friend Kim, who's a sexy young blonde like me, she surprised me by saying she would like to help my fantasy come true and she knew a couple of guys who were up for it too! We made a date for Saturday night round at Kim's flat but, when I arrived, there was just her there. She explained that the guys would be coming later (in more ways than one), and suggested that we get comfortable. She then shrugged off the silky housecoat she was wearing to reveal that she was completely naked underneath. She had a lovely body; really firm and in great shape, but with generous boobs that were sticking our pertly in front of her. I watched, fascinated, as she reached up and touched them with the palms of her hands. Her nipples went erect almost immediately. Suddenly I felt really aroused, and I allowed Kim to reach across me and start undressing me. I was naked in no time too, and then she pushed me back on the sofa. 'Show me how you toss yourself off,' Kim smiled. I was really turned on but a bit shy too, so I buried my face in the cushions as I lay on my stomach and opened my legs wide. I cupped my hand over my pussy, feeling that I was wet already, and began to move my bum up and down, grinding my mound over my rigid palm. It was fucking gorgeous, and I



went faster and faster, flushing all over as I humped my hand. After a few minutes I glanced up at Kim. She was staring at me, her own legs wide open. Her fingers were rubbing hard at her engorged clitoris. It was an incredible sight, and I could tell from her gasps that she was on the point of cumming. I held myself open with my left hand, and slowly, so that she could see every inch, I pushed three fingers of my right hand into my dripping cunt. Then I started pumping them in and out, hard and fast. That did it for Kim, and she moaned as she came, her fingers a blur on her clitty.

'Now I want a closer view.' said Kim as she regained her composure. She walked over to the sofa, turned me over so I was sitting on the edge, and knelt down between my legs. I was aching to come, and couldn't stop myself openly masturbating just in front of her face. She pulled my hand away though, and slipped the tip of her tongue inside my cunt. I gripped her head and held it to my pussy as she stirred her tongue inside me. I started cumming then, gasping as my cunt muscles tightened and Kim licked me faster and faster.

Just when I was about to blow my lid, Kim lifted her head and said, 'You can come in now, guys!' Before I could say anything, these two hunky blokes came in from the kitchen. They must have been watching all the action through the serving hatch. 'This is Liam and this is Dominic.' said Kim, grinning. 'We loved your performance.' said Liam with a dirty look on his face, 'Now can we fuck that lovely pussy of yours?'

I was too excited to even speak, and just nodded my eager assent as Liam got his head down between my legs. I thrashed from side to side as he tongued me, my clitty feeling like it was on fire. Meanwhile, Dominic inserted his cock between my lips and he sighed as I tightened my lips around it. I've always enjoyed giving blow-jobs and Dominic's cock was good and thick, just the way I like 'em. My cunt was dripping juices by now, and suddenly it was filled with Liam's cock. God, I needed that! I was so wet and horny; all I wanted in the world at that moment was to be fucked really hard. Liam shifted forward so that he could tease and chew on my

breasts as he thrusted into me. With my legs high and wide I had one cock pounding my pussy and another in my mouth, and all I could do was give a muffled squeal as orgasm after orgasm hit me. In the end Liam just unloaded his spunk straight into me. I felt the tightening of his hairy balls and then his creamy goo was dribbling out from between my legs as Liam pulled out and sprayed the last streams onto my cunt. Kim licked some of it up as I prepared to swallow the load that Dominic then started giving me. He squirted it right down my throat, spurt after spurt as he watched Kim lick up the mixture of pussy juice and spunk from my pussy. The night didn't end there either, with me watching as the guys took turns to fuck Kim. I enjoyed being a voyeur just as much as I did having my dirty fuck with the boys! Hope it won't be my last!
Pauline, Greenford.
